

American POTATO JOURNAL

*Official Organ of
The Potato Association of American*

VOLUME 43

JANUARY-DECEMBER, 1966

Editor-in-Chief
JOHN C. CAMPBELL

THE POTATO ASSOCIATION OF AMERICA

% RUTGERS COLLEGE OF AGRICULTURE AND ENVIRONMENTAL SCIENCE

NEW BRUNSWICK, NEW JERSEY 08903

OFFICERS

HENRY M. DARLING, *President*

CHARLES E. CUNNINGHAM, *President-Elect*

DONALD ISLEIB, *Vice-President*

RICHARD L. SAWYER, *Past-President*

WILLIAM RAYMER, *Secretary*

JOHN C. CAMPBELL, *Treasurer*

DIRECTORS

JAMES MUNRO

ROBERT JOHANSEN

JAMES GREGORY

SUSTAINING MEMBERS

STARKS FARMS INC.	Route 3, Rhineland, Wisconsin
FRANK L. CLARK, Founder — Clark Seed Farms	Richford, New York
FRITO-LAY, INC.	3420 Singleton Blvd., Dallas 12, Texas
ROHM & HAAS COMPANY	Philadelphia, Pennsylvania
WISE POTATO CHIP CO.	Berwick, Pennsylvania
E. I. DU PONT DE NEMOURS AND CO. (INC.) Industrial and Biochemicals Dept.	Wilmington 98, Delaware
MCCAIN FOODS LIMITED	East Florenceville, N. B., Canada
CLAUDE BOTKIN CO., INC.	316 Haven Drive, Arvin, California
PITTSBURGH PLATE GLASS CO., Chemical Division	Pittsburgh, Pennsylvania
INTERNATIONAL MINERALS & CHEMICAL CORP.	Libertyville, Illinois
STAUFFER CHEMICAL COMPANY	380 Madison Avenue, New York, N. Y. 10017

INDEX TO VOLUME 43

SUBJECT INDEX

- Abscission of flowers and fruits in Russet Burbank, 453.
After-cooking darkening, selection for freedom from, 207.
Allo-Kramer shear press, 177.
Amino acids and sugar changes in chips, 238.
Argentina, potato collecting expedition in, 427.
Australia, western, growing potatoes in, 173.
Bacterial ring rot resistance, in relation to glycoalkaloids, 349.
Bailey, Harold, Obituary, 211.
Bintje, history of variety, 458.
Biological relationships in *Solanum* species, 92.
Bisulfite inhibition of enzymatic blackening, caused by tyrosine oxidation, 397.
Biuret effect on specific gravity of Katahdin in Maine, 291.
Blackening, enzymatic, inhibited by bisulfite, 397.
Blight resistance, 43.
Book review, *Bibliografia Latinoamericanos sobre papas*, 61.
Breeding for freedom from after-cooking darkening, 207.
 for resistance to late blight in Hoofddorp, 261.
 in Germany with wild *Solanum* species, 63.
Bruising device, 424.
Bulbocastana found from Central America to Guatemala, 83.
Chemical composition of potatoes, relationship of organic acid to specific gravity, 361.
Chinook, a high quality scab resistant variety, 1.
Chip browning, role of phosphorus in, 158.

- Chip color, effect of Chloro-IPC on, 193.
 effect of three viruses on, 393.
 reversion phenomenon, 355.
- Chipping (4-H) Potato Club, 53.
- Chips, changes in sugars and amino acids in, 238.
- Chloro-IPC foliar applications, effect on chip color, 193.
- Clonal yields as affected by seed tuber size, 418.
- Collection, United States potato, 278.
- Colombia, selection for *Phytophthora infestans* resistance in, 35.
- Color of Russet Burbank as related to storage temperature, 305.
- Common scab resistance in Chinook, 1.
- Conicibaccata* found from central Mexico to Bolivia, 87.
- Connecticut, potato varieties in, 253.
- Conversion table for specific gravity, dry matter, and starch in potatoes, 138.
- Cooking effect on microbiological flora of fresh, frozen and dehydrated potatoes, 315.
- Copper soil residues affect *Phytophthora infestans*, 431.
- Cytogenetic studies of species and hybrids of *S. Megistacroloba*, 199.
- Darkening, after-cooking, selection for freedom from, 207.
- Dehydrated potatoes, effect of cooking, on microbiological flora, 315.
- Demissa*, found from northwest Mexico to Guatemala, 91.
- Densitometry, measurement of discolored pigment by, 412.
- Discoloration pigment in injured tubers, 412.
- Di-Syston effect on control of *Verticillium* wilt, 286.
 effect on dry matter, 289.
- Droopmeter developed to measure texture of French fries, 175.
- Dry matter as affected by Di-Syston, 289.
 conversion table developed, 138.
- Dykstra, Theodore, P. honored, 301.
- Enzymatic activity, effect of PCNB on, 147.
 blackening inhibited by bisulfite, 397.
- Eskew, Roderick K., receives Babcock-Hart Award, 257.
- European Association for Potato Research, third triennial conference, 426.
- Fertilizers in Maine, potash studies for, 122.
 magnesium on Long Island, 249.
- Flower formation and abscission in Russet Burbank, 453.
- Foliar application of Chloro-IPC, effect on chip color, 193.
- Foundation seed farm of Cornell University established, 106.
- 4-H Chipping Potato Club, 53.
- French fry texture measuring instrument, 175.
 fries, shearpress for testing texture of, 177.
- Fresh potatoes, sugars and amino acids in chips from, 238.
 effect of cooking on microbiological flora of, 315.
- Frozen potatoes, effect of cooking on microbiological flora of, 315.
- Germ-plasm, collection at Sturgeon Bay, 278.
 potential in South America, 367.
- German potato breeding, 63.
- Germination of potato seed affected by light and gibberellin, 443.
- Gibberellin effect on seed germination, 443.
- Glycoalkaloids in relation to bacterial ring rot, 349.
- Golden nematode, resistance in Peconic, 450.
- Grafting effect on flower formation and abscission in Russet Burbank, 453.
- Grand Falls, a new early harvest industrial potato, 323.
- Greensprouting seed potatoes, 371.

- Growing potatoes in Western Australia, 173.
Growth responses of Russet Burbank to N-dimethyl amino succinamic acid, 107.
Honorary life members
Dykstra, Theodore P., 3013.
Schaal, Lawrence A., 299.
Wright, Lyman E., 303.
Young, Lewis C., 297.
Houghland, G. V. C. retires, 60.
Iron effect on potato virus X in tomato, 6.
Iron-59 translocation in potato plants, 184.
IR-1 Project, United States potato collection, 278.
Juglandifolia found primarily in South America and Costa Rica, 83.
Katahdin, chip color of, as affected by application of Chloro IPC, 193.
effect of nitrogen and biuret on, 291.
Kennebec, chip color of, as affected by application of Chloro IPC, 193.
specific gravity affected by vinekilling, 381.
verticillium wilt in, 286.
Leaf roll, effect on yield, specific gravity and chip color, 393.
L. E. E.-Kramer shear press, for testing texture of French fries, 177.
Light and gibberellin effect on seed germination, 443.
Longipedicellata found from central Mexico into the United States, 88.
Long Island, magnesium fertilization on, 249.
Magnesium fertilization of potatoes on Long Island, 249.
sulfate effect on yield, composition and nutrient uptake, 403.
Maine, effect of Chloro-IPC on chip color of Katahdin and Kennebec in, 193.
effect of nitrogen and biuret on Katahdin in, 291.
effect of three viruses on specific gravity, yield and chip color in, 393.
ten years of potash studies in, 122.
Maturity of seed, effect on yield, 332.
Mealiness as affected by storage temperature and sprout inhibitors, 10.
Megistacroloba, species and hybrids of, 199.
Mexico, taxonomic work on *Solanum* species in, 81.
Microbiological flora, effect of cooking fresh, frozen and dehydrated potatoes on, 315.
Montaldo, Alvaro, author of *Bibliografia Latinoamericana*, 61.
Morelliformia, found from central Mexico to Guatemala, 83.
N-dimethyl amino succinamic acid (B-Nine) effect on Russet Burbank, 107.
Nitrogen sources and biuret effect on yield and specific gravity in Maine, 291.
Obituary, Bailey, Harold L., 211.
Sandar, Nick, 105.
Wheeler, Ernest J., 348.
Oil spray effect on yields, 328.
Ontario isolates of *Verticillium albo atrum*, 439.
yields as affected by seed maturity, size and spacing in, 332.
Organic acid, relationship of, to specific gravity and storage time, 361.
Peconic, a new variety resistant to golden nematode, 450.
Pennsylvania 4-H Chipping Potato Club, 53.
Pentachloronitrobenzene effect on enzymatic activity and phenolic content of potatoes, 147.
Phenolase localization and activity in the potato tuber, 112.
Phenolic content of potatoes, effect of PCNB on, 147.
Phosphorus absorption, as affected by potassium, 217.
effect on potato chip browning, 158.
Phytophthora infestans, affected by copper soil residues, 431.
selection for resistance to, 35.
Pinnatisecta, found from Colorado to southern Mexico, 84.

- Plants, most from one tuber, 128.
- Polyadenia* found in central and south Mexico, 92.
- Potash studies (1956-1965) in Maine, 122.
- Potato Association of America
- Abstracts of papers, 340.
 - Annual meeting and local arrangement Committee announced, 32.
 - Annual meeting and Potato Utilization Conference information, 131.

 - Call for papers, 56, 104.
 - Committees for 1966-1967, 461.
 - Financial report, 390.
 - Minutes of annual meeting, 385.
 - Nominations for honorary life members called for, 57, 103.
 - President's letter, 146.
 - Program of annual meeting, 139.
- Potato collection, United States, of *Solanum* germ-plasm, 278.
- Potato growing in Western Australia, 173.
- Potato quality, role of phosphorus in potato chip browning, 158.
- Potato virus X, in tomato, effect of iron on, 6.
- Potassium sources and levels, effect of, on phosphorus absorption, 217.
- effect on yield, composition and nutrient uptake, 403.
- Price and quality of tablestock potatoes, 22.
- Processing and dry matter as affected by Di-Syston, 289.
- Quality and price of tablestock, 22.
- role of phosphorus on potato chip browning, 158.
- Quantitative measurement of discoloration in injured potatoes by densitometry, 412.
- Reconditioned potatoes, sugars and amino acids in chips from, 238.
- Resistance to bacterial ring rot as affected by glycoalkaloids, 349.
- to blight, 43.
 - in Peconic to golden nematode, 450.
 - to *Phytophthora infestans* in Colombia, 35.
 - to *Phytophthora infestans* in Hoofddorp, 261.
- Reversion, chip color, 355.
- Russet Burbank, effect of grafting and solanum understock on flower formation and abscission of flowers and fruit of, 453.
- sugar content and color of, 305.
 - effect of storage and sprout inhibitors on, 10.
 - growth response of, to N-dimethyl amino succinamic acid, 107.
- Sable, a new early variety, 154.
- Scab, resistance in Chinook to, 1.
- Schaal, Lawrence A. honored, 299.
- Sebago specific gravity affected by vine killing, 381.
- Seed germination affected by light and gibberellin, 443.
- maturity, size and spacing effect on yield, in Ontario, 332.
 - size effect on first clonal generation yields, 418.
- Selection for resistance to *Phytophthora infestans* in Colombia, 35.
- Sloughing in relation to storage temperature and sprout inhibitors, 10.
